Re: Revised Conditional Approval of Revised Areas of the Waste Rock Site,
PacifiCorp, Cottonwood/Wilberg Mine, C/015/019-AM00A, Outstanding File

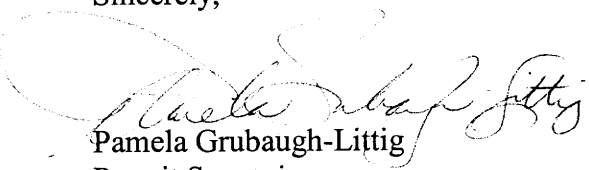

Dear Mr. Semborski:

The Division accepts the information submitted January 19, 2000 that removes 12.98 acres of undisturbed area and the correction of the two topsoil piles at the Cottonwood Waste Rock Site (previously conditionally approved on March 1, 2001). This information is conditionally approved upon the submittal of an updated permit area map and a new permit description for the Cottonwood Mine.

On February 8, 2001, I agreed that the description of the permit area for the Cottonwood Mine may be revised to simplify the permit area description by squaring off the northern boundary. Please submit the revised permit area map and description by April 16, 2001.

If you have any questions, please call me.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor
